1. The following is an examiner's statement of reasons for allowance:

the art of record fails to teach a data network or a method of communicating in a data network, comprising interconnecting a core network of hybrid switch circuits using WDM optical fibers, wherein optical data signals at a first dedicated wavelength from fibers are converted to electrical signals and switched through an electronic switch in the hybrid switch circuits and data signals at other wavelengths from the fiber are switched through an electronically controlled optical switch; monitoring traffic through the electronic switch in each hybrid switch circuit to initiate communication among upstream and downstream circuits to establish flow paths through the optical switches of multiple hybrid switch circuits of the core network; and converting electrical signals at peripheral switches to WDM signals which are transmitted over fibers to the hybrid switch circuits, the peripheral switches responding to communication from the core network to forward data over the established flow paths.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thomas J. Mullen, Jr. whose telephone number is 703-305-4382.
